

One shot, behind the lines, it's clear
that it's the call of war that brought us here
fall in line and get her back
move forward and get them back alive

and as this battle will unfold
reveal the blood and money
take cover and close your eyes
hands bound and left behind

I hope the bullets dodged my love

Bridge:
new bombs, new war
take time, love more
open heart, open arms
at ease soldier your turn to watch
as the guns keep rattling in the air
hands in the dirt, getting us there
last chance now almost over soon
fire in the hole gonna light the fuse

I hope the bullets dodged my love

tell us where you put them friend
tell me love, show me where
I've got the nerve to tell him when it's over
take this flag and wave it
you don't have to say to me
it's over now the troubles gone away

I hope the bullets dodge my love
The bullet dodged me love..... today
